COSMETIC LIGHT BASED THERAPIES FOR SKIN REJUVENATION .

The Cosmetic Light Based Therapies for Skin Rejuvenation course includes crucial theoretical and practical components for advanced learning. You will receive in-depth client consultation training, which will coach you through addressing client concerns and building a tailored treatment plan that will deliver results.

The 'hands on training' component is one of the most important, with emphasis based on treating a variety of skin types in a simulated clinical environment. Your training will build on your prior foundation laser knowledge and nurture all aspects of administrative and practical modules to deliver desired outcomes for you and your client.

Following on from our Laser Hair Reduction Course, this mid-level laser course will see you complete the necessary 50 laser hours required to apply for your Full Use Licence for Skin Rejuvenation.

Non-surgical, medical grade laser rejuvenation treatments are in high demand due to the dramatic results that can be achieved with little to no downtime. This advanced laser treatment is perfect to combat sun damage, freckles, flushing and blushing of the skin. Rejuvenation is also a widely requested anti-ageing treatment in clinic.

Strict regulatory guidelines exist in Queensland and Western Australia. Our trainers are licenced through QLD Radiation Health and also WA Radiological Council.

COURSE DETAILS .

COURSE PRICE

\$3,500

COURSE DURATION

Onsite practical: 8-days
(equivalent to 50 logged hours)

COURSE EXPIRATION

12 months

COURSE OUTCOME

Certificate of Completion
