medi-aesthetic training

LIGHT BASED THERAPIES PACKAGE .

The Cosmetic Light Based Therapies for Hair Reduction is designed to provide you with the required foundation knowledge and practical training to effectively and safely provide light based laser hair reduction treatments using leading global aesthetic devices.

Theoretically, you will learn the history of laser and be equipped with all tools necessary to provide an in-depth client consultation. Upon consultation and assessment, an effective and tailored treatment plan can be designed and implemented to achieve your clients goals. Further training is provided to effectively educate clients on safe after-care practices.

Practical training is considered in the highest regard as a key element to your course. We provide hands-on training in a simulated clinic environment with real clients. During this course you will complete the necessary 25 laser hours required to apply for your Full Use License for Hair Removal and upon completion, you will be a qualified Laser Hair Removal Technician.

Strict regulatory guidelines exist in Queensland and Western Australia. Our trainers are licenced through QLD Radiation Health and also WA Radiological Council. You do not need a trainee license prior to attending the academy.
